Background

Welcome to Seacare Maritime Medical Centre - The Medical Centre that takes pride in Serving you with **CARE**. Every patient is important to us and we only believe in the concept of providing good quality medical services in a cozy ambience.

Convenient Location

We are a medical centre that specialises in providing maritime healthcare solutions to all local and foreign seamen. Conveniently located at 100 AM (Tras Street), which is of close proximity to port areas, we ensure speedy and prompt medical services.

One Stop Medical Facility

At Seacare Maritime Medical Centre, you will enjoy the comfort of our personalised quality service, great ambience and one stop medical facility that comes complete with x-ray, laboratory, minor surgery and pharmacy services.

We also offer Routine Services such as office consultations, vaccination, pre-employment, health screening and ship calls. Officers, crew and shore personnel can seek consultation at our medical centre or arrangements can be made for our doctor and/or nurses to board vessels. Medical supplies including drugs and equipment can also be inspected and replenished by Seacare's associated pharmaceutical provider.

Specialist Consultancy is also available at our centre for those who require specialist care. We have a panel of reputable specialists for referrals should the need arises. In addition, we can also refer patients to our associated dental clinics for basic and specialised dental works.

Backed by a team of competent doctors, specialists, nurses and operation personnel who have worked in tertiary medical institutions, emergency medical services as well as in maritime services, we ensure a high standard of medical care by conducting internal audits and providing feedback channels for clients.

24-Hour Response Facility

We put your worries to rest as our medical centre staff are on-call for 24 hours to service clients' needs after working hours even though the centre is open during normal office hours. Our emergency services provided include medical evacuation by sea launch, helicopter, commercial or private aircraft to shore and land ambulance. Our efficient medical team will swiftly plan and transfer the casualty to the next appropriate centre of care.

Regional Affiliates

Seacare Maritime Medical Centre also has affiliated clinics in South East Asia. With this healthcare network, shipping crew can also seek treatment overseas.
